

**1/08 STATE PROCUREMENT AWARDS EXAMINATION ADMINISTRATOR CONTRACT ON 1/2/08.**

The state procurement office awarded the examination administrator contract for the national uniform examinations on January 2, 2008. The testing company is in the process of implementing the Arizona testing sites and cannot provide a definite date for the start of testing. It does expect the implementation to take several weeks. Persons taking the 2008 examination throughout the country will not receive a score for several weeks until a “cut” score is determined by the Appraiser Qualifications Board. It is anticipated that the implementation process in Arizona should be completed before or at about the same time the test results are available nationwide.
